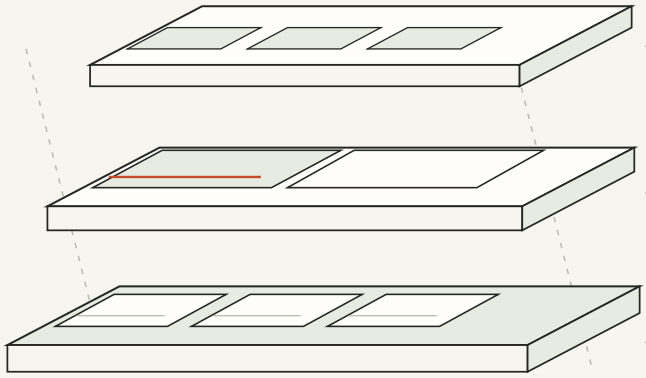
SYSTEM OVERVIEW

lattices

A programmable workspace for macOS. Arrange windows, keep project sessions, find context, and give agents a local control surface.

FIG. A / FUNCTIONAL ASSEMBLY

SCHEMATIC / NOT TO SCALE



01 **Workspace system**
Projects / sessions / layers

02 **Desktop control**
Windows / displays / input

03 **Agent system**
Observe / act / capture

ONE DESKTOP / SHARED CONTEXT / MULTIPLE INTERFACES

CAPABILITY MAP

01 Workspace system

SEE SHEET 02
